

## Make the Jump to Increased Profits

### **UNLOCK THE MAXIMUM ASSET VALUE WITH MINIMAL REPAIR INVESTMENT**

Reconext's grade-jump service has been designed to optimize the grade and overall value of used devices.

Grade-jump targets cost effective repairs, which can be completed quickly and ultimately provide the greatest value increase. This results in a fully functional device, enhanced to a cosmetic condition which will satisfy your customer's requirements. Up to 25% of trade in devices have glass damage which decreases their resale value significantly. Recovery of that value through creative solutions is a key to the Reconext mission and corporate values.

Grade-jump is part of a comprehensive suite of mobile repair and refurbishment solutions which Reconext can provide. We specialize in repair, refurbishment and the circular economy related to consumer electronics so that we will create value to our customers. Our corporate mission is to deliver solutions that optimize the value of returned electronic devices through continuous innovation in repair. We have a solution to meet your need.
